

## **Winchester Utilities Pool Policy**

It is the time of year to be filling pools. If you are a sewer customer, below is information on how to lower the sewer charges associated with the water used in filling your pool:

- Come to the main office to notify Customer Service that you are going to be filling a pool and to complete a form which will require you to provide the pool dimensions. Your pool must hold greater than 7,000 gallons in order to qualify.
- Fill your pool.
- After the account is billed and if the sewer charge is at least \$100 for the month, \$75.00 will be credited towards the sewer charges.

Reminder: In order to qualify for the sewer adjustment you must notify customer service and complete the pool form in advance of filling the pool. The pool must be greater than 7,000 gallons and the sewer charge for the same month must be \$100 or more.

Only one swimming pool adjustment is allowed in a 12 month period.

If you have questions, contact a Customer Service Representative at 931-967-2238.
